*Summary of the Office Action*

The Office Action of 3/20/2007 had stated that claims 2, 4 and 5 were objected to, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Applicant had amended claim 1, in the response of 03/30/2007, to include all limitations of claims 2, 4 and 5. The current Advisory Action states that the amendments made on 30 March 2007 would not be entered as they raise new issues that would require further consideration.

*Discussion*

Applicants respectfully amend claim 1 to place this application in condition for allowance. Claim 1 is amended to more clearly define which limitations are repeat units and which are polymers. Applicants believe that the amended claim avoids an issue of indefiniteness.

*Conclusion*

Applicant respectfully submits that the patent application is in condition for allowance. If, in the opinion of the Examiner, a telephone conference would expedite the prosecution of the subject application, the Examiner is invited to call the undersigned representative.

Respectfully submitted,
